TO THE CTO,

Keenan wyrobek.

Zipline,

Kigali., Rwanda

Dear sir,

**RE: APPLICATION FOR SOFTWARE DEVELOPMENT INTERNSHIP POSITION**

My name is Intwaza Belyse, a software developer from Rwanda. I enjoy solving Africa's challenging problems using technology. I am excited to apply for the position of software development internship at your company.

Zipline's focus on delivering vital medical products using drones, has always fascinated me. Coming from a developing country that is still facing poverty problems has inspired me to develop solutions that directly impact the community. I am, therefore, always on the lookout for innovative ways to address real-life problems. I am currently working on Lima Smart, an IoT based project that aims to help farmers improve the quantity and quality of their yields.

My belief is that with my skills and background, I would be able to contribute to Zipline's inevitable growth. My email and phone number respectively are [belyseintwaza@gmail.com](mailto:belyseintwaza@gmail.com) +250781877792. Looking forward to hearing back from you and possibly getting to discuss further.

Sincerely,

Intwaza Belyse.
